How to Add Events · Create Posts · Edit Existing Pages | newsite.psibetasigma1914.org/wp-admin

■ ADDING A NEW EVENT

- 1 Log in at newsite.psibetasigma1914.org/wp-admin
- 2 In the left sidebar click **Events** → **Add New**
- 3 Enter the **Event Title** (e.g. "2026 Annual Golf Tournament")
- 4 Write a **description** in the content editor — what, why, who it's for
- 5 Set **Start Date/Time** and **End Date/Time** using the date pickers below the editor
- 6 Add a **Venue** — click "Use an existing venue" to reuse saved locations like Grey Rock
- 7 Upload a **Featured Image** in the right panel — displays on the events calendar grid
- 8 Click **Publish** — event appears live on [/events/](#) with RSVP registration enabled

■ **Tip:** Events show on the [/events/](#) calendar automatically. No shortcodes needed.

■ CREATING A NEWS POST / ANNOUNCEMENT

- 1 In the WordPress sidebar click **Posts** → **Add New**
- 2 Enter a clear **Post Title** (e.g. "Chapter Meeting — June 2026")
- 3 Write your content in the **block editor** — use the + button to add paragraphs, images, headings
- 4 On the right panel, select or create a **Category** (e.g. Announcements, Programs, News)
- 5 Add **Tags** if relevant (e.g. scholarship, golf, brotherhood)
- 6 Upload a **Featured Image** in the right panel — displays as the post thumbnail on [/news/](#)
- 7 Click **Publish** to go live immediately, or **Save Draft** to hold until ready

■ **Tip:** Start with these Categories: Announcements, Programs, Chapter News — create them under Posts → Categories.

⇒ ■ EDITING AN EXISTING PAGE

- 1 In the sidebar go to **Pages** → **All Pages**
- 2 Find the page you want and click its title or hover and click **Edit**
- 3 The **Gutenberg block editor** opens — click any text block to edit it directly
- 4 To add content click the + icon and choose: Paragraph, Image, Heading, Columns, Button, etc.
- 5 To move a block, hover it and use the ↑↓ **arrows** or drag the six-dot handle on the left
- 6 To delete a block, click it → click the ■ **three-dot menu** → **Remove Block**

- 7 Click **Update** (top right) to save — changes go live immediately
- 8 To preview: click the **eye icon** → **Preview in new tab** before hitting Update

■ **Tip:** Never click 'Move to Trash' unless deleting permanently. Use 'Switch to Draft' to hide a page temporarily.
