01 — TRADEMARK & COPYRIGHT CLEARANCE REPORT

Word Mark: "KINORVA"

■ **CLEAR** — No USPTO registration found. The name is coined (no dictionary meaning), making it a strong candidate for federal trademark registration. Domain kinorva.com exists as a parked/unclaimed domain with no active competing business. **Recommendation: File USPTO application immediately upon brand finalization (~\$350 filing fee).**

Tagline: "Smart Cooler Solutions"

■■ **MEDIUM RISK as standalone mark.** HAHA Smart Cooler Solutions-US is an active competitor using nearly identical descriptive language in the smart vending space. USPTO will likely reject this phrase as a standalone registration (descriptive). **Safe as a tagline under the KINORVA master mark — do not attempt to trademark the tagline independently.**

Logo Concept Risk Assessment

#	Concept Name	Risk Level	Notes
1	Intelligence Trident	■■ Medium	Trident shape heavily used (Maserati, USB-IF). Different industry = lower risk but crowded.
2	Kintu Provision Mark	■ Low	Stylized roots + leaves. Highly distinctive execution. Recommended.
3	Arva Field System	■ Low	Sprouting field motif is common in agri-tech but execution is unique.
4	Six-Second Halo	■ Low	Circle + prong combo is clean and distinctive. Safe.
5	Guardian Trident (Shield)	■ High	Shield + trident = most contested combo. Used by cybersecurity/financial brands. Avoid.
6	Orbit	■ Low	Orbit circle with leaf prongs is distinctive in this category. Safe.
7	Hidden K Mark	■ Low	Stylized K letterform. Distinctive and clean. Strong candidate.
8	Provision Flame	■ Low	Flame + leaf combo unique in smart cooler/vending space. Safe.
9	Intelligent Vessel	■ Low	Bowl/vessel shape is unique in this category. Recommended.
10	Expansion Crown	■■ Medium	Crown marks contested (Rolex, etc.). Leaf-crown execution is sufficiently different — formal cl
