

ARC Rewards Statement

David Smith

Job Title	Software Applications Engineer 4
Manager	Chester Stedman

Salary / On Target Earnings (OTE)

A merit increase is an adjustment to an employee's salary/On Target Earnings (OTE) based on their performance as well as their unique and critical skillsets, talent potential, and their position in the salary range. Funding of each manager's merit budget is determined by several factors, including country market movements, business results and priorities, and employee eligibility.

Effective Date	Prior Salary / OTE	Change	New Salary / OTE
2026-02-01	\$137,553.21 USD	\$13,189.89 USD (9.59%)	\$150,743.10 USD

Note: Values may be different in your paycheck/statement due to taxes and/or rounding.

Bonus

Your year-end bonus is based on two factors: HP's business performance and your individual performance. Funding for the HP bonus program is tied to the company's revenue and net profit against goals—the better we do, the greater the funding. Within the context of available funding, your manager determines your bonus payout based on your overall contributions, leadership, and growth.

FY25 Performance Period				FY26 Performance Period	
Eligible Earnings	Plan Target	Bonus Percentage Awarded	Bonus Amount Awarded	Bonus Plan	Plan Target
\$134,737.00 USD	9.00%	4.45%	\$6,000.00 USD	VPB HPCO	9.00%

Note: Values may be different in your paycheck/statement due to taxes and/or rounding.

Stock

The purpose of HP's long-term incentives (equity) is to strengthen employees' alignment to company goals and encourage their focus on creating long-term value for stockholders. Rewards are linked to your contributions to the company. HP typically grants Restricted Stock Units (RSUs), which vest one-third (1/3) per year for three (3) years. The number of RSUs granted and the grant price listed below is calculated using the average closing stock price over the 20 trading days immediately preceding the grant date (excluding the grant date itself). The future value of your RSUs may increase or decrease depending on how HP stock performs.

Grant Date	Grant Type	Shares Granted	Grant Price	Grant Value
2025-12-08	RSU	1,226	\$24.46 USD	\$30,000 USD

Equity, such as Stock Options and Restricted Stock Units (RSUs), granted by HP Inc. are not part of compensation for purposes of calculating any severance or pension benefits. In addition, equity is subject to the terms and conditions of the applicable HP Inc. grant agreement and plan (governed by Delaware law), such as continued employment and/or performance criteria. If the applicable terms and conditions are not satisfied, the grant will be forfeited and you will have no right to compensation in lieu of forfeited grants.

Lastly, all equity grants are discretionary and subject to approval by the HP Inc. Board of Directors or its delegate.

Note: Statement should be used for reference only. Actual values are maintained in Workday. The terms of the most recent English statement supersede any prior or translated version.
