01 — BRAND FOUNDATION

MISSION STATEMENT

Smith Cap Group exists to build, protect, and transfer generational wealth across multiple asset classes and operating businesses — with discipline, integrity, and a long-term perspective that outlasts market cycles.

BRAND PROMISE

"We invest with discipline, operate with integrity, and build lasting value across generations."

CORE VALUES

VALUE	DEFINITION
DISCIPLINE	Every decision is governed by process, not emotion. We follow the thesis.
INTEGRITY	Transparent with partners, subsidiaries, and the communities we serve.
LEGACY	We build for the next generation — not the next quarter.
STEWARDSHIP	Capital entrusted to us is protected before it is grown.
EXCELLENCE	Institutional-grade standards applied to every business we operate.

BRAND POSITIONING STATEMENT

Smith Cap Group is a diversified private holding company that operates at the intersection of entrepreneurship and institutional capital management. Unlike traditional investment firms, SCG builds and operates businesses directly — creating value through active ownership, not passive speculation. Our brand communicates authority, permanence, and the disciplined pursuit of generational wealth.

02 — LOGO SYSTEM

PRIMARY MARK — THE SMITH CREST

The Smith Crest is the official primary mark of Smith Cap Group. It consists of a heraldic shield bearing the SCG monogram, flanked by laurel branches and topped by a torch. The shield contains three symbolic elements: the lion (strength), the torch (vision), and the key (access to opportunity). This mark is used on all formal, legal, and institutional materials.

PRIMARY TYPEFACE — CORMORANT GARAMOND

Cormorant Garamond (Bold / SemiBold / Regular / Italic) — A refined serif that communicates heritage, authority, and prestige. Used for all primary headlines, the SCG wordmark in documents, and institutional materials.

09 — PROHIBITED USES

The following actions are strictly prohibited and constitute a brand standards violation. All SCG entities, partners, and vendors must adhere to these rules without exception.

■ PROHIBITED ACTION	WHY IT'S PROHIBITED
Stretching or distorting the logo in any direction	Destroys proportional integrity of the mark
Using any color not in the approved SCG palette	Dilutes brand recognition and authority
Placing the logo on a busy/photographic background	Reduces legibility and prestige
Using unapproved fonts in branded materials	Creates brand inconsistency
Recreating the logo in a different software/style	Only official files from S2T Designs are approved
Using Gold on Gold Light — any light-on-light combo	Fails accessibility contrast standards
Adding drop shadows, glows, or gradients to the logo	Cheapens the premium aesthetic
Using the logo at sizes below minimum specification	Illegible and unprofessional
Placing the logo in any color other than approved variants	Violates primary color system
Using a screenshot or low-res version of the logo	Always use vector (EPS/SVG/PDF) source files
Using 'Smith Capital Group' as the brand name	Official name is Smith Cap Group — no exceptions
Combining SCG mark with another brand mark at equal size	SCG must always be the dominant mark in SCG contexts
Using nonprofit entity logos to represent SCG commercially	XFTC and ESF are independent — do not conflate
